Wales:

A dementia friendly nation

Wales: a Dementia Friendly Nation

In April 2015 the Minister for Health and Social Services announced his priorities for dementia in the year ahead and the steps we will take to support each of these:

Dementia Risk Reduction

Our revised *Dementia: Reduce your Risk* guidance sets out the lifestyle choices individuals can take which could lessen the risk of developing dementia.

Dementia Diagnosis Rates

We are taking action to improve dementia diagnosis rates in Wales, including extra training and support for primary care and care home staff.

Post-Diagnostic Support

We will be funding new support workers across Wales to help those who have received a dementia diagnosis.

Care in General Hospital Settings

We are supporting NHS Wales staff to ensure they have the knowledge and skills they need to provide the best care for patients with dementia.

Public Awareness and Support

We will be providing further funding to the Alzheimer's Society in Wales for their Dementia Friends/Dementia Supportive Communities campaigns.
