**Written declaration on priorities in the fight against Alzheimer's disease**

*The European Parliament,*

- having regard to Rule 116 of its Rules of Procedure,
  - A. whereas Alzheimer's disease currently affects 6.1 million Europeans and that figure will double or triple between now and 2050 with the ageing of the population,
  - B. whereas this disease is the most common cause of dependency,
  - C. whereas it is vital that political commitment be made in the areas of research, prevention and social protection,

    - promoting pan-European research on the causes, prevention and treatment of Alzheimer's disease,
    - improving early diagnosis,
    - simplifying procedures for patients and carers and improving their quality of life,
    - promoting the role of Alzheimer's associations and giving them regular support;
